Moses Ngicu
Software Developer

Hello, I'm a software developer with a passion for creating innovative solutions to complex problems. I have a strong background in programming languages such as JavaScript, Python ,Java, and PHP, and I enjoy working with a variety of technologies to build scalable and efficient software applications. My experience includes developing both front-end and back-end systems, and I am committed to delivering high-quality code that meets the needs of my clients and users. I am excited to collaborate with others and continually learn and improve my skills as a software developer.
